PROFESSIONAL SUMMARY

Developer specializing in scalable web and mobile applications in production environments. Proficient in PHP (Laravel, CakePHP), JavaScript (React.js, Next.js, React Native), Java, and modern databases including MySQL and Firebase. Experienced in RESTful API development, database optimization, unit testing, Manual / E2E testing, CI/CD pipelines, Docker, and agile team collaboration. Proven ability to deliver user-friendly, maintainable solutions with a strong focus on code quality and system reliability.

WORK EXPERIENCE

Web Developer | **Forty Degrees Celsius, Inc.** | *June 2024 – Present*

- Built and maintained production features for the NativeCamp platform (CakePHP, Angular, JavaScript), serving thousands of active users and improving overall system reliability by 30%+
- Implemented role-based access control (RBAC), admin management pages, and backend API integrations following MVC architecture - reducing admin task completion time significantly
- Optimized MySQL query performance using DB Replica for read operations, cutting average query response time by ~40% on high-traffic endpoints
- Wrote 50+ unit tests (Codeception) , Manual / E2E (Playwright) test cases, achieving high regression coverage and reducing production bugs by 25% before the features release.
- Integrated Firebase Analytics & Crashlytics for real-time mobile event tracking across GA4 L1/L2/L3 event hierarchies, improving debugging efficiency
- Collaborated in an agile team using Git workflows, pull requests, code reviews, and Speckit documentation consistently delivering features on sprint deadlines
- Managed Docker containers for local development and deployed on Linux-based servers using CLI and shell scripting

Back-End Developer Intern | **Onsource, Inc.** | *February 2024 – May 2024*

- Engineered WorkwiseHR system using Laravel, building RESTful APIs for employee management, attendance, leave, and payroll modules, reducing manual HR processing time by 50%
- Optimized MySQL database schema and queries, improving system response time by 35%
- Implemented secure RBAC for HR workflows, ensuring data integrity and access control compliance

Freelance Web & Mobile Developer | **Self-Employed** | *June 2022 – February 2023*

- Delivered 3+ custom client solutions including inventory systems and mobile apps using PHP, JavaScript, and React Native
- Managed full project lifecycle from client requirements gathering to deployment and post-launch support

TECHNICAL SKILLS

Backend: PHP (Laravel, CakePHP), Node.js, Java, RESTful API Development, MySQL Query Optimization
Frontend: React.js, Next.js, React Native, TypeScript, JavaScript, jQuery, HTML, CSS, Tailwind CSS
Databases: MySQL, SQL Server, MongoDB, Firebase (NoSQL)
Testing: Unit Testing (Codeception), E2E Testing (Playwright), Test Case Writing
DevOps & Tools: Git, Docker, Linux/CLI, Shell Scripting, CI/CD, Firebase Analytics, DebugView, Crashlytics
AI & Modern Tools: GitHub Copilot, AI-assisted testing workflows, Prompt Engineering
Practices: Agile/Scrum, Code Review, Performance Optimization, MVC Architecture

TECHNICAL PROJECTS

NativeCamp Platform — (*CakePHP, Angular, MySQL, Docker, Firebase Analytics)*

- Delivered admin features, bug fixes, and backend enhancements in agile sprints — contributing to platform stability for 10,000+ users
- Wrote unit and E2E test suites; tracked GA4 events via Firebase DebugView to improve mobile analytics accuracy

WorkwiseHR – HR Information System — (*Laravel, React.js, MySQL)*

- Built full-stack HR platform automating employee management, attendance, leave, and payroll processing
- Developed responsive frontend with secure RESTful APIs and role-based permissions

IoT Pet Feeding System — (*Next.js, React Native, Firebase)*

- Built cross-platform web/mobile app with real-time IoT hardware integration for automated pet feeding schedules

Sales & Inventory Systems — (*PHP, JavaScript, jQuery, MySQL, Bootstrap)*

- Delivered 2 custom inventory systems (computer parts & motor parts) with real-time stock tracking and reporting

EDUCATION

Bachelor of Science in Information Technology (BSIT)
Cebu Technological University | *August 2020 – 2024*
